Re: Covid 19 Testing/Protocol

Dear Student,

Welcome back to the spring, 2022 semester. As you are aware the COVID 19 infection rate is rising in Florida, as well as throughout the world. Although not required, we are recommending that you get 2 doses of the COVID 19 vaccination, as well as a booster dose. This is for your protection, as well as those in the Bethune-Cookman University community. We are also recommending that you get a COVID 19 test before returning to campus. If you test positive, you should isolate for at least five days, and not return to campus until you test negative for the virus.

Upon your return to campus, you will be tested for COVID19. This is a part of the check-in process, and required for residence halls and classroom participation. You will not be allowed entrance into the residence halls without a negative COVID 19 test. Testing will be done on the scheduled dates of check-in. The dates and times are:

Tuesday, January 4, 2021	8:00am – 5:00pm
Wednesday, January 5, 2021	8:00am – 5:00pm
Thursday, January 6, 2021	8:00am – 5:00pm
Friday, January 7, 2021	8:00am – 5:00pm
Saturday, January 8, 2021	8:00am – 5:00pm

**No testing will be done after 5:00pm.**

If you test positive for COVID 19 during the check in process, you will be required to leave the campus immediately. You will not be allowed to check into the residence halls. Bethune-Cookman University will not provide housing for students testing positive and needing to isolate. There will be no medical personnel available to monitor students seeking to isolate on campus.

Bethune-Cookman University will continue its mask mandate. Masks are required in all campus buildings and at all campus functions. Please help us to keep your learning environment safe by adhering to the mask policy. If you have any questions you can call (386) 481-2109.

We look forward to seeing you,

Bethune-Cookman University
