Dear Future Wildcats:

Welcome to our 105 year old institution founded by Dr. Mary McLeod Bethune in 1904. Bethune-Cookman University is an outstanding comprehensive university which offers degrees in liberal arts as well as professional fields of study. Through Dr. Bethune’s pursuit of lifelong learning and social equity, she demonstrated that education was capable of democratizing society through civic engagement and academic excellence. Today this legacy lives on in our students as they engage in service learning projects that enhance effective citizenship.

As the president of Bethune-Cookman University, I enjoy spending time with students who engage in reflective thinking. An inquiry into new meaning is at the heart of the educational process. Students describe their learning experience as developing new lenses for viewing the world. As they engage in critical thinking, students delight in an application of classroom learning in the internship placements and study programs around the world.

It is also exciting to observe student leadership in action at meetings of the Student Government Association (SGA). Yes, occasionally the president actually drops in on meetings to hear directly from campus leaders.

Bethune-Cookman University is a place where dreams become reality and where education leads to hope for a better tomorrow. Join me in sustaining our founder’s legacy of faith, scholarship and service.

Sincerely,

**Dr. Trudie Kibbe Reed**
